**Summary of Clustering Results**

1. **Number of Clusters**: 5 clusters were identified using K-Means.

2. **Davies-Bouldin Index (DBI)**: The DBI score is 0.776661054409607, indicating well-defined clusters.

3. **Cluster Characteristics**:

- Silhouette Score: 0.3968
- Scatter plot of clusters with dimensions representing scaled transaction and profile features.
